Abstract of WO 0074703 (A2)

The invention relates to a pharmaceutical preparation containing one of the botulinum neurotoxins of Clostridium botulinum of types A, B, C, D, E, F or G or a mixture of two or more of these neurotoxins. The inventive preparation is characterized in that the neurotoxin or the mixture of neurotoxins does not contain the complexing proteins which, together with the neurotoxins, naturally form the botulinum neurotoxin complexes.
